SKILLS

EDUCATIONS

Bachelor Degree

Major in Agroekoteknologi, Plant Breeding
Program Brawijaya University. GPA 3,02 (Very
Satisfying).

Magister Degree

Major in Plant Science, Plant Breeding and
Biotechnology Program Brawijaya University.
GPA 3,68 (Very Satisfying).

RECORD AS LECTURER

Artikel Publication

Have published research and service articles
in national and international journals as many
as 123 articles from 2016-2025.

Research and Services

Obtained research and service support from
DRPM, private parties, and internal parties as
much as 10 research funding and 12 service
funding from 2016-2021

Lecturer Certification

Has been certified as a lecturer since 2019 in
the area of Plant Breeding.

PROFILE

Born in Lumajang July 17, 1990. Experienced in the field of agricultural practice and lecturer for more than 10 years. Has good adaptability, creativity, and has good interpersonal skills. Able to work in teams and individuals, result-oriented, good at networking and building relationships. Can make decisions quickly and accurately. Mastering statistical data analysis, Experimental Design, plant breeding, and plant agronomy.

WORK EXPERIENCE

PT. Advanta Seeds Indonesia 2023 - March 2025
Supervisor Seed Production Research

- Conduct research related to the optimization of crop cultivation for food and vegetable commodities
- Lead, mentor and manage high-performing teams, fostering a collaborative and results-oriented work environment.
- provide services to all supply chain teams and plants, related to crop optimization and crop characterization.

Universitas Tribhuwana Tungadewi 2015 - June 2025
Lecture of Agroteknologi Major

- Teaching courses such as plant breeding, plant genetics, food and plantation crop cultivation, experimental design, statistics, and seed production.
- Became head of the tissue culture laboratory, head of the plant laboratory, head of the buana sains journal directorate, and head of the agrotechnology study program.
- Actively conduct research and public service with DRPM, IRN, Internal, and Independent funding

PT. Agri Makmur Pertiwi 2014 - 2015
Variety Trial Supervisor

- Conduct research and multilocation testing for maize crops before variety release.

CV. Blue Akari 2010- 2014
Asisstant Plant Breeder

- Conducted crossing process of exotic maize plants to produce superior breeder and hybrid seeds.

ACHIEVEMENT

- Leading 10 trials of sweet corn, purple corn, pulut corn at CV Blue Akari since 2010.
- Research collaboration with Maize Research Centre UB team as Assistant Plant Breeder for exotic maize development since 2010.
- Involved in the registration of protection rights for 9 sweet corn varieties with the Maize Research Center (MRC) team of Brawijaya University in 2012.
- Leading 12 hybrid feed maize trials at PT Agri Makmur Pertiwi in 2015.
- Research Collaboration with PT Gudang Garam on the development of tobacco stalk biochar in 2017 and 2018.
- Research Collaborations with the Ministry of Education and Culture from 2017 - 2020 on maize, sweet potato, and pumpkin commodities.
- Leading research independently from 2016 to 2022 as many as 30 research titles on various plant commodities.
- Research collaboration with the Ministry of Industry and Brawijaya University on the down streaming of hybrid sweet corn in 2017.
- Research jury of PIONIR IX PTKIN Indonesia at UIN Maulana Malik Ibrahim in 2019
- Research collaborations with PT Indofood Sukses Makmur Tbk in 2021 and 2022 related to polyploidisation as an effort to optimise plant growth and yield
- Jury for Landscaping and Gardening Competition for High School and Vocational School in East Java in 2022
